📅 24 years old

Education

IT Architecture Student
Since October 2022 1337 Coding School Benguerir, Morocco
Advanced problem-solving, algorithms, and full-stack development

DEUG in Economics & Management
From 2019 to 2021
Faculté des Sciences Juridiques, Économiques et Sociales, Cadi Ayyad
Marrakesh, Morocco
Analytical skills, financial understanding, and business management

Baccalauréat in Physical Sciences
2018 Lycée Youssef Ben Tachafin Demnat, Morocco

Software Development Skills

Projects

Memory Card Game *(HTML, CSS, Vanilla JavaScript)*
- Developed an interactive memory card game to enhance front-end skills.
- Implemented dynamic user interactions, a responsive layout, and smooth animations.

Dragons Website *(HTML, CSS, Vanilla JavaScript, Docker)*
- Designed a social platform where users can chat, follow friends, and invite them to play games.
- Currently developing features to enhance user experience.
- Integrated Docker for seamless deployment.

Webserver *(C, C++, Multiplexing)*
- Built a basic web server to understand server-side development and concurrent client request handling.
- Gained hands-on experience with server architecture and network communication.

Common Core Projects *(C, C++)*
- Developed various system-level programming projects, focusing on problem-solving and building scalable applications.

Languages and Technologies Used

HTML, CSS, and Vanilla JavaScript
- Utilized in two key projects:
  - **Memory Card Game**: Focused on building an interactive and dynamic user interface.
  - **Dragons Website**: Developed an engaging experience where users can chat, follow friends, and invite them to play games. *(Project still in development)*

React
- Strong understanding of React and continuously improving expertise.
- Built my **portfolio** using React: ezzahraouaourikt.me, showcasing my ability to design component-based, interactive front-end applications.

C and C++
- Experience gained through common core projects, focusing on system-level programming and problem-solving.

Docker
- Used Docker technology to streamline development and deployment processes.

Interests & Skills

Interests
I am passionate about learning new programming languages and eager to work in a **collaborative team environment** where I can continuously develop my skills and adapt to new technologies.

Key Skills
- **Fast Learner & Adaptability**: Quick to master new technologies and programming languages.
- **Leadership & Teamwork**: Experienced as a project team leader, successfully guiding team members to achieve project goals while fostering a collaborative environment.
- **Strong Communication**: Effective at interacting with clients and colleagues from diverse backgrounds.
- **Organization & Time Management**: Highly organized, punctual, and committed to meeting deadlines while contributing effectively within cross-functional teams.
